OPPOSITION TO A ZONING EXCEPTION

The parcel at 1000 Lake Street is zoned for an 8-story building. A building that is larger than that will have negative impacts on our community, especially Austin Gardens. Increased deep shade will result in loss of trees and habitat in Austin Gardens, compromising citizens' enjoyment of the park. **We oppose the construction of any building at or near 1000 Lake Street that is taller than the currently-zoned 80 feet.**
